

Cert ID Europe Ltd now UKAS accredited for British Retail Consortium Global Standard Food certification

In response to food industry demand, Cert ID Europe Ltd has recently become accredited by the United Kingdom Accreditation Service (UKAS) to deliver certification against the BRC Global Standard Food.

214

Richard Werran, Managing Director said *"Many of our Non-GMO clients also require BRC Global Standard Food certification and have been asking Cert ID to extend our certification portfolio and thus carry out stacked audits to save time and reduce cost"*.

BRC Standards are globally recognized and accepted which fits perfectly with Cert ID's worldwide certification activities. Cert ID Europe Ltd is accredited to provide BRC Global Standard Food certification against all 6 fields of evaluation covering all 17 product categories of the BRC Global Standard Food.

Maria Taylor, BRC Marketing Assistant added, *"Because Cert ID Europe Ltd has a streamlined structure we do not have to pass on high administrative costs to our clients which means that we can provide extremely cost efficient BRC certification"*.

The value of any certification is the quality of the assessment and this is directly linked to auditor competence, capability and consistency. For this reason all Cert ID Europe Ltd's BRC auditors are BRC trained, each having a unique BRC Third Party Auditor number. Cert ID also measures and monitors on-going assessor performance as part of Cert ID's continual improvement programme.

Book your next BRC certification through to the end of 2007 at 2006 prices now by calling Maria Taylor on +44 1827 874849 or alternatively by email maria.taylor@cert-id.com.
